Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This coloring book is different. It is the images that came to me as I was trying to find a way to relax. They are computer generated and helped me to relax. The second thing that is different is that I encourage you to copy the pages and use them over. They are all different and you will relate to them differently on different days. You can visit my web site for the other books that I have written. Coloring by folks is one of the best ways to relieve stress and tension. That is an established scientific fact. The other side is that it is fun. This book will be followed by at least nine others. I almost have the second one done. I will make one from images drawn by my Granddaughter, another will feature landscapes and building. The format probably will be unusual as I don t think in a very straight line. This adult coloring book has a childish flare just to help you relax. I have one on the drawing board that features medieval characters. My son-in-law has drawn them but getting them in to a color book is a challenge so this one is down the road.
