ANCIENT MARINERS: THE STORY OF SHIPS, AND SEA ROUTES (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Ancient Mariners: The Story of Ships, and Sea Routes So much has been written during the last thirty years on the real significance of sea power in the history of modern civilization that no one - and surely no one who lives in the British Isles - is likely to forget the fact that the sea forms the great highway of the world. But it is not so generally recognized how vast a part ancient mariners played in building up civilization itself and spreading abroad throughout the world the rich cargoes of new ideas that stimulated peoples in outlying regions to pursue the hazardous pathway of what we call progress. Such islands as Crete and Cyprus, Sicily and Sardinia, Japan, the Malay Archipelago, New Guinea, Australia, and the far-flung isles of Oceania could not even have received their original inhabitants until some sort of vessel had been devised to convey human beings across the water. This implies in the case of Australia that even the most primitive of existing peoples had to traverse the ocean - even if it was nothing more than the gap between Borneo and Celebes now known as Wallace s Line before they reached their present home. How long ago that happened we cannot even conjecture. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
