The idea for this book predates not only my trilogy on colonial rebellion but my decision to produce the Reconsidering Chartism series. Its gestation began in 2003 with an off-hand comment by a student during a session on European influences on Chartism in the 1840s. She asked: what impact did Chartism have on the rest of the world? I have spent the years since trying to find an answer and this has taken me in directions I could not have anticipated when it all began. Although much has been written about Chartism in Britain, though considerably less on Ireland, when I started work on this problem I quickly found that, apart from articles considering European influences on Chartism and on Chartism in Australia and a book on Chartists in the United States, this was not a question that had been the subject of serious consideration. This is followed by a chapter that explores Chartism and the Australian colonies especially NSW and Victoria during the 1840s and 1850s when, what were previously penal colonies, made the transition from rule by governors to democratic constitutions in which the People s Charter played an influential part. Chapter 4 draws this discussion together by asking just how far Chartism was a global...
