Reviews

Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

(Pasquale Larkin I)

EVOLUTION EVOLVES: A PRESUPPOSITIONAL ARGUMENT AGAINST NATURALISM

Sledge Press, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Though the idea of unpredictable evolutionary change is fundamental to the philosophy of Darwinian naturalism, Dougherty uncovers a common tendency among the proponents of naturalism to smuggle in a hand-picked group of timeless absolutes from the outset of inquiry. From the start, evolution is made curiously immune to itself. The recognition of the fact that the mechanisms governing the evolutionary process must themselves be subject to evolution and change is the dawn of a new era in the philosophy of naturalism.
