By R C Bryant

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from An Outline for a Field Study of a Lumber Operation This outline was first published in 1912 for the use of students of the senior class of the Yale School of Forestry and for others who might wish a guide to aid them in the preparation of a report on the field operations of a lumber company. An effort has been made to include the general methods and practices in all forest regions, hence certain topics which appear in the outline will not apply to specific operations, and on the other hand there may be omissions of certain details which apply to local conditions and which the student should cover. Acknowledgment is hereby made to the various alumni and others who have furnished criticisms and suggestions of the first outline which have been of great aid in preparing this revision.
